letter*

Enclosed please find a copy of the water data for the 3rd Quarter of 1998. In cooperation with a letter dated November 5, 1997 from Pamela Grubaugh-Littig which stated "In the future, you need to send only one copy of the operational water data to the Division".

The laboratory data is presented in the enclosed form since the issuing laboratory was not able to submit the data in the electronic form requested by the Division. Included with this letter are surface water measurements for pH, conductivity, flow, temperature, and dissolved oxygen.

If you have any questions please call me at (435) 472-0884. Thank you for your assistance.

Sincerely yours,
