Under the direction of David B. Miller of Lodestar Energy, Inc, we are submitting revisions to the reclamation plan portion of the White Oak Mines permit. Information has been provided concerning the elimination or retention of the pre-SMCRA highwalls at the site. Cut and fill volumes have been calculated for the pre- and post mining contours and compared.

Lodestar is aware that there may be a pagination problem. We intend to remedy the problem with a complete resubmittal of the reclamation plan text upon approval of this submittal.

If you have any questions please contact me at (435) 472-0884.

Sincerely yours,
