Salt Lake City, UT 84114-5801

Dear Mr. Haddock

Enclose is the revision of the Exploration Application reviewed by your staff. All of the deficiencies noted by your staff have been addressed except the one concerning land use between the landowner and White Oak Mine. This issue was not directed to me and will be taken care of in-house by Dave Miller.

Changes to the document are highlighted and two maps of the area are enclosed for better reference of the proposed drill sites and roads leading to them. The seed mixture mentioned in this document was faxed to my office by Paul Baker when we talked by telephone late in October of 2000 before I started this project. If this seed mixture is not correct or differs from the one in the White Oak Mining Permit, it was used because it was recommended to me by Mr. Baker as mentioned above. If this needs to be changed, please notify myself or Dave Miller and the necessary changes will be made.

If you have any questions, please refer them to Dave Miller who will then pass them onto myself.

Sincerely,

Jack R. Rogers P.G.
