SUBJECT: Permit - C/007/001 White Oak Mines  
 Notification of Starting Reclamation at the White Oak Complex

Dear Ms. Grubaugh-Littig:

Lodestar Energy, Inc. is respectfully submitting this letter as notification of the start of the reclamation at the White Oak Complex. The underground portion of the mining will be complete by September 28, 2001. The initial phase of the reclamation process involves the removal of buildings and structures that will not be necessary and are in the path of the surface mining plan at this site.

The facilities to be removed are as follows:

S-25 Waste Water Treatment Building	S-40 Transfer Building
S-27 Bathhouse	S-41 Belina #1 Mine Fan
S-28 Shop	S-42 Belina #2 Mine Fan
S-29 Portable Garage	S-43 Filter Pond 005
S-30 Pumphouse	S-44 Main Substation
S-31 Diesel Fuel Storage (formerly washbay)	S-45 Pole Barn Foundation
S-39 Conveyor No. 2	

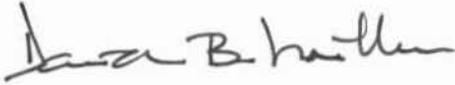

(Non-building) Facilities

Tanks  
 Portals

Lodestar is planning to remove 9-inches of VSM material from the bank between the upper and lower mine bench and store this material on the road above Sediment pond 004. No undisturbed areas within the disturbed area boundary are planned to be affected until the surface mining permit application is approved.

If there are any questions, please feel free to call me at (435)448-9454 or 9455.

Sincerely,

A handwritten signature in black ink, appearing to read "David B. Miller". The signature is written in a cursive style with a large initial "D" and "M".

David B. Miller
