SUBJECT: Stipulations 6 Post Mining Land Uses

Dear Ms. Grubaugh-Littig:

Lodestar Energy, Inc. is requesting an extension until December of 2002 to complete this stipulation. This change involves bringing the new heirs of Milton Oman, Ltd. together to resolve the omission of Section 30 in the post mining land use plan letter written by Milton Oman in 1983. A portion of Section 30 is included in the original lease agreement for the facilities at White Oak and it is where more than half of the disturbance at the White Oak Complex is located. Also, the correction of the typographical error on Amended Lease agreement stating the "Lessor" will install a jeep trail across the reclamation instead of the "Leasee". We have not received official notification on who is responsible to sign such agreements.

This stipulation will be met prior to any reclamation being completed to the extent of starting revegetation. The heirs have had this matter discussed with them along with the issue of official notification in November of 2001. To date, we have not received a letter on the subject.

Thank for you consideration on this matter. If there are any questions, please feel free to call me at (435)448-9454 or 9455.

Sincerely,

David B. Miller  
 Business Manager
