Re: Three Cessation Orders for Imminent Dangers to the Public, White Oak Mine, & Loadout, C/007/001

Dear Mr. Bishop:

Enclosed are three Cessation Orders being issued for imminent danger to the public, in existence at the White Oak Mine and Loadout, in Carbon County, Utah. The three imminent public safety issues are:

1. Open mine portals,
2. Dangerous highwalls, and
3. Dangerous structures and equipment.

These dangers are located across from two summer youth camps.

Please take measures to abate these safety hazards immediately.

Sincerely,

Mary Ann Wright
Associate Director, Mining
