**Subject:** White Oak reclamation

Dennis Caine -

After review of this Tuesday's bids, the division of Oil, Gas and Mining is recommending to the Div'n of Purchasing the acceptance of the lowest responsive bid, to Kent Bethers Construction Co. of Heber, UT.

It would be most helpful if we could know whether we will have more fill to put the site back to its original contours through the use of the site for rock waste from the Skyline Mine. We are at the critical point. I am available to meet with you, our engineers and Skyline's environmental coordinator, Chris Hansen, as soon as possible to take a final direction on this matter.

We plan to begin reclamation construction as soon as contracts are signed and the notice to proceed is given in about 2 weeks from now. You can reach me at 801-538-5306, or respond to this email.

Thanks, Mary Ann
