Re: conditional use permits for wells in Carbon County.

Dear Mr. Jacoby:

We recently received copies of three (3) Notices of Violation (NOV) from the Division of Oil, Gas & Mining regarding the following three Marion Energy wells: (copies of NOV's enclosed)
Alpine School Dist. 6-17
Cordingly Canyon 15-1
Ballpark Canyon #1

Since these three wells all have conditional use permits, and since one of the conditions of those permits is that you comply with all state and local laws and regulations, it is imperative that you correct the violations cited in these Notices of Violation.

Carbon County hereby issues you a Notification of Non-compliance, and requires that you bring the three above-mentioned sites into compliance with the Division of Oil, Gas & Mining no later than April 20, 2007, in order to avoid having the conditional use permits revoked.

Please contact our office if you have any questions.

Sincerely,

Gayla M. Williams
Zoning Administrator
