Subject: RE: White Oak 007001 Outgoing weekly progress form

Priscilla,

We are continuing to mobilize crews and equipment today, although the site was wet and muddy this morning, so I do not anticipate any work. Our working hours will be daylight, (7ish) and working until 5 or 6 in the evening. I agree with the first meeting on the 14th at 9am.

I have met with both districts regarding bio solids hauling, I believe we have everything in place to begin the hauling on the 14th and 15th, depending on site conditions.

Thanks

Kent.

Hello Kent,

I made up a form that I think covers everything. I assume you are not mobilizing until next week, due to weather, and that the first weekly meeting will be next Thursday October 14. What hours will the crew work?

Thanks,
Priscilla
