I rechecked the ownership map and it turns out that the most extensive stream channel work to be done is on Hilda and Robert Hammond land (parcel 2A-786 in the NW1/4 NE1/4 NW1/4 Sec 30 and parcel 2A-745 the SW1/4 SE1/4 SW1/4 Sec 19, both sections in T 13 S, R 7 E). I reconfirmed with the County Recorder that they still own the parcels and their address:

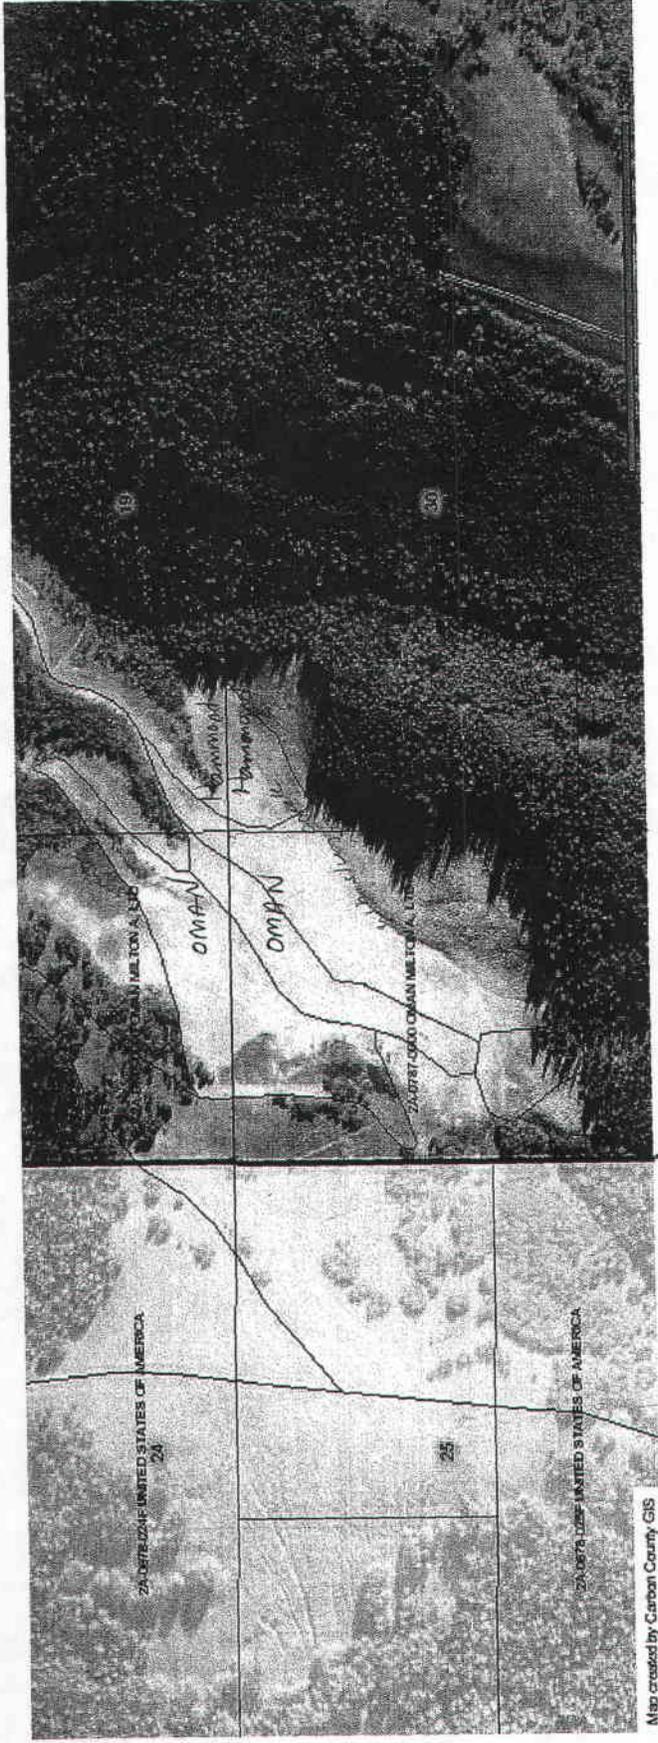

Hilda M. & Robert G. Hammond
2912 Redwood Ave.
Costa Mesa CA 92626

Attached is a scanned image of the Plat over the topography. You can see that the Oman/Hammond line runs north south.

I think it would be a good idea to send a letter to the physical address, just to make sure we are covered as far as due diligence in keeping them in the loop. Daron agrees that it might be a good idea. The letter will be identical to the email. Are there any other land owners or pertinent parties that I should send a letter to as well?
