Subject: 0070001 Outgoing/vehicle access to White Oak mine site

Hello Mr. Caine,

The Division would like to have vehicle and equipment access to the former White Oak Mine site this field season. Right now, our engineer needs access to complete his designs before putting the work out for bid. Would you provide us with a key to your lock, or would you prefer that we add our own lock to your chain?

Thanks,

Priscilla Burton, CPSSc
