Subject: One lockRE: 0070001 Outgoing/vehicle access to White Oak mine site

Hello Darin,

The Division has placed a lock on the gate accessing your property and the former White Oak mine site. We did not remove any locks, since there were several on the chain and we would have had to cut the chain several times. I will have a key made for you.

Thanks,
Priscilla.

Ms. Burton, sorry for not responding sooner. Yes add your own lock to the chain and have it be the only lock. My logger put a lock on there just the other week and a chain. I prefer to have just one lock so mail me a key to lock you put on. People cut the lock or chain and put on their own locks all the time so I want there to be one lock. Thanks, Darin

> Hello Mr. Caine,

> The Division would like to have vehicle and equipment access to the former White Oak Mine site this field season. Right now, our engineer needs access to complete his designs before putting the work out for bid. Would you provide us with a key to your lock, or would you prefer that we add our own lock to your chain?

> Thanks,
