**Attachments:** Fwd: Meet 12:30

A site meeting was set for 12:30 p.m. The landowner called to leave a message on my office phone at 12:00 p.m. to indicate that he would be 1/2 hour late. I did not receive the call, because I had already left my office for the site. Division staff waited at the site until 1:05 p.m. to meet with the landowner. Unfortunately, we did not cross paths. See attached email.

Ms. Burton, I arrived at the gate about 1:00 but the gate was locked. I thought you were going to be working up Whiskey creek today? I do not get cell service. I called to leave you a message that I would be 15-30 minutes late. I drove through heber-Provo took forever. I will be here all afternoon I can check my email so if you are up here working send me an email. Thanks, Darin

Hello Darin,

We will be at the site this Wednesday June 29. Could you meet us there at 12:30 p.m.?

Priscilla.

Ms. Burton, Yes I would like to meet but I trust your judgement. Let me know when you will be down there.

Thanks, Darin

Hi Darin,

Thank you. It is cleared. James Owen and I were just up there this

morning. The site is greening up and the terraces have controlled the water flow. However, a good deal of water bypassed the lower terrace and flowed down the access road, then over the slope, creating quite a gully. We would like to avoid this situation by removing the dirt access road to the lower terrace. Would you like to meet at the site to discuss the change? The new channel is stable and passed water through drops and pools as designed. I will ask the contractor to return to the site in the next couple of weeks to finish up the work on the slopes and in the upper channel.

Ms. Burton, yes I will notify the logger that he needs to clear

things

out of the way. Thanks, Darin Caine
