**Attachments:** C-14-42\_001.pdf

Kent,

Below is a copy of the proposed reclamation map for the white oak loadout. It is difficult to read, so I drew a red line over the culvert. The map shows that originally, the culvert was to have been removed from the elbow where exited from beneath the RR tracks down to the Creek. This plan was not followed.

Did you want to have the site walk this Thursday before equipment has left the site or next Thursday?  
Priscilla.
