Dear Sirs,

The Division has run cost estimates on removal of the asphalt surface and reclamation of the White Oak mine access road. This job may be economically done in conjunction with a Carbon County paving project near Scofield next year. So we are encouraged to finalize our plans and get the job out to bid early in 2014.

According to our engineer's estimate this will use the remaining bond.

We would like to meet with you (or your designated representative) as you are one of the landowners being served by this road in Township 13 South, Range 7 East, Section 19 to explain our plans for reclamation of this road.

Are you available for a meeting on Monday, December 9, 2013 at 10 a.m. either by conference call or in person at the Division of Oil Gas & Mining office on 1594 West North Temple (Suite 1210) in Salt Lake City? Please reply to me either by phone or email.

Priscilla Burton, CPSSc
