Good News! The grant application that I wrote for Whiskey Creek (including White oak) to Clear Creek was fully funded by the Utah Department of Agriculture. This will allow for a coordinated effort at weed control and mapping on the area over a period of three years. It will involve a mapping crew from Snow College, a USFS crew on the western boundary, and a back pack spray crew on private lands to the East (funded by the Hammonds), as well as the SCWMA group effort.

Hello! Thank you for participating in the ISM Grant process. Attached is a list of the Grants that will receive funding for ISM FY2014-2015. Some of the amounts have been reduced from the amount requested. The contracts are being put together by Mark Quilter, and will be available for signatures very soon.

Thanks  
Rich
