To: Darin Caine <omanranches@hotmail.com>, OGMCOAL DNR <ogmcoal@utah.gov>

Hello Darin,

The reclamation work on the White Oak mine access road is just about finished. I have attached a photo to give you an idea of what it looks like. Most of the asphalt was removed along the length of the road, and the remainder was buried in the cut of the road.

The Division recently received funding to remove the culvert and pad in Eccles Creek. I would like to talk with you about that work. Please give me a call as soon as possible.
