8. Noncoal Waste

I picked up garbage along the highway frontage of the reclaimed site.

9. Protection of Fish, Wildlife and Related Environmental Issues

Yellowstone cutthroat trout and rainbow trout could be seen in the reclaimed channel.

10. Slides and Other Damage

Eccles Creek banks were stable.

13. Revegetation

I planted 57 cone-tainers of Beaked and Nebraska sedge; 3 cone-tainers of Coyote willow. 3 - containers of elderberry; and 8, 1 gallon plants (Serviceberry, birchleaf mahogany, snowberry, and coyote willow). A pick was very handy for planting the sedges into the silt accumulated at the water's edge. A mattock was great for digging on the slopes. Soils were surprisingly moist below the surface.

16.b Roads: Drainage Controls

Highway 264 ditch above the Eccles site is stable.
