Mr. Cleon B. Feight
Utah Division of Oil, Gas, and Mining
4241 State Office Building
Salt Lake City, Utah 84114

Dear Mr. Feight:

Enclosed is a copy of Sunedco Coal Company's plan to extract bulk coal samples from three areas on the Sage Point-Dugout Canyon properties. Two of the sample areas are old abandoned mine adits that are not on Federal land. We have no jurisdiction on these areas (Dugout Canyon mine and Coal Creek mine).

The proposed sample area in Fish Creek Canyon (on Federal lease U-092147) is a small open room on the coal outcrop. This surface disturbance was authorized under a previous approved exploration program.

The Price River Area Manager of the BLM has given verbal approval to the proposed bulk sampling in the Fish Creek Canyon subject to the stipulations for Sunedco's current drilling program to assure proper reclamation of this area. If you have any objections to the Fish Creek Canyon sampling proposal, please advise Stephen Falk of this office or myself.

Sincerely yours,

J. Gordon Whitney
