RE: Proposed Coal Exploration Program
Sunedco Coal Company
Drillhole 15-5
Carbon County, Utah
CEP/007/002

Dear Mr. Moffitt:

The Division has reviewed Sunedco Coal Company's amended coal exploration plan for Carbon County, Utah, which was received by this office August 8, 1983. The plan under consideration adequately satisfied the State's concerns under requirements of Parts 776 and 815 of the regulations promulgated under the 1979 Act, "Regulation of Coal Mining and Reclamation Operations", Title 40-10-1 et seq, Utah Code Annotated, 1953.

The Division requires no additional information at the present time. Upon completion of the exploration operations the Division will require notification of completion and a description of the plugging and reclamation activities which have taken place for each site.

Thank you for your cooperation. In reply, please refer to CEP/007/002.

Sincerely,

CYRIL J. YOUNG
ENGINEERING GEOLOGIST

RE: Sage Point/Dugout Canyon
1983 Drilling Program
U-07746

Dear Mr. Jackson:

We are attempting to further refine our 1983 Sage Point/Dugout Canyon coal exploration drilling program. As part of that refinement, we would like to relocate the proposed drillhole 15-5. The new location is at the junction of two jeep trails, in a sagebrush-grass community. The area will be archaeologically cleared prior to drilling.

Please call me if you have questions concerning this request.

Yours very truly,

Charles Durrett
Environmental Coordinator
