Re: Status of Willow Creek Closure Plan Approval

Dear Lowell:

Based on recent telephone conversations between Conrad Parrish of ACZ and members of the Utah Division of Oil, Gas and Mining (UDOGM) staff, I understand that all information submitted by Blackhawk on the Willow Creek Site has received technical approval from the staff. Based on this understanding we are preparing revised submittal documents for your review and approval. Our activities will be confined solely to updating the submittal of September 1989 to include the various pieces agreed upon by your staff and Blackhawk. UDOGM has requested eight (8) copies of the document. We will supply four (4) complete revised copies to you. Four (4) copies will be replacement pages suitable for insertion into your existing copies of the September 1989 submittal.

We will work diligently to submit a revised document by March 12, 1990. It is my understanding that upon receipt your staff will work to review and approve the submittal within one week. I look forward to approval of the Closure Plan Application.

Respectfully submitted,

Conrad Parrish for Jody Belviso
