Re: Utah Mined Land Reclamation Act

Dear Mr. Wise:

Enclosed are the appropriate forms for filing a reclamation plan with this Division. Should additional information or guidance be needed from the Division we will be glad to meet with you relative to the preparation of these forms.

In most cases where companies have prepared a fairly detailed mining and reclamation plan for federal leases this will suffice in place of our MR 2. on the fee and state portions of any mine development.

You will note additional forms enclosed with this letter regarding surety for the reclamation assurance. These are enclosed mostly to familiarize you with the different options open to you under the State law. We will discuss the different forms of surety with you at your request.

Sincerely,

DIVISION OF OIL, GAS, AND MINING
