Dear Ms. Wright:

In answer to the questions in your letter of September 11, OSM does know about the seed mixture recommended by the BLM. The BLM Price Office has talked to the Denver OSM office about the seed mixture. Since I have received no comment from the OSM, I assume the seed mixture meets with their approval. ✓

We will also be using this seed mixture in the revegetation of other disturbed areas at the mine sites as described in the compliance study done by Golder Associates for Braztah in January, 1979.

If you have any further questions, please call me.

Very truly yours,

AMERICAN ELECTRIC POWER  
SERVICE CORPORATION
