DIVISION OF
OIL, GAS & MINING

Re: American Electric Power, Price River Coal Company, Braztah Complex,
Crandall Canyon Project, Carbon County, Utah

Dear Mr. Smith:

This office has completed its review of the above mentioned project. It is our understanding that the requested approval is for the shaft construction and not for the total facility.

Our review indicates that the ponds will be very small, will not interfere with existing water rights, and will not threaten life or property. Approval is given by this office for the construction of the ponds subject to the following:

1. That this office be notified when the construction is completed.
2. That this office be allowed to inspect the construction.
3. That the ponds be breached when the project is completed.
4. Approval by this office does not waive approvals by other involved divisions of the State of Utah.

Sincerely,

Dee C. Hansen, P.E.
State Engineer
