Re: NPDES Permit Number: UT-0023086

Dear Mr. Hutchinson:

In your letter of August 15, 1980, you requested that the above-referenced permit be amended to include thirteen (13) sediment pond discharges, as shown on an attached map. The map that was attached to your August 15, 1980, letter will be considered a Revised Area Map submitted pursuant to Part III, A-1, of your permit. You are hereby authorized to discharge from the thirteen (13) sediment pond discharge points shown on the August 15, 1980, Revised Area Map, subject to the limitations contained in Part I.A., of your permit. If you have any questions, please contact Rob Walline at telephone: (303) 837-4901.

Sincerely yours,

  
Roger E. Frenette  
Chief, Water and Hazardous  
Waste Enforcement Branch  
Enforcement Division

cc: Utah Dept. of Health  
EPA, Utah State Engineer
