Mr. Lynn Kunzler
Reclamation Biologist
Utah Division of Oil, Gas and Mining
1558 W. North Temple
Salt Lake City, Utah 84116

Dear Lynn,

Rob Wiley asked me to notify you about the status of the vegetation studies we are conducting for Price River Coal Company. We have collected all the necessary field data and are preparing the report. We are now waiting for the Soil Conservation Service to provide the productivity statements so we can complete the project. George Cook, the SCS range conservationist, has already examined all sites except those associated with the Barn Canyon addition. If you have any questions about the study before we submit the report to Price River Coal and they send it to you, please call Rob or me.

I received the draft vegetation guidelines yesterday and plan to send you our comments as soon as the proposed revision has been reviewed by our technical staff.

Sincerely,
MARIAH ASSOCIATES

Craig L. Kling
