Mr. Kenneth B. Hutchinson
Price River Coal Company
76 South Main
P.O. Box 629
Helper, Utah 84526

Dear Hutch:

The Division has reviewed Charles Greenwood's 1981 report that resulted from a survey of migratory birds that have high federal interest and their high priority habitats associated with the Crandal Canyon electric transmission line. The report is satisfactory and should be considered as the final determination needed concerning avifauna in relation to the Crandal Canyon powerline.

Thank you for an opportunity to review this report. Again thank you for the Company's interest and concern for management of the local wildlife resource.

Sincerely,

John Livesay, Supervisor
Southeastern Region
