RE: Determination of Apparent
Completeness for the Crandall
Canyon Modification to the
Price River Coal Company Complex
ACT/007/004
Carbon County, Utah

Dear Mr. Wiley:

The Utah Division of Oil, Gas and Mining has completed a cursory review of the Mining and Reclamation Plan (MRP) and amendments submitted by Price River Coal Company for their Crandall Canyon Modification facilities. This Division has determined the plan to be apparently complete (DOC).

The Division of Oil, Gas and Mining will now prepare a technical assessment (TA) to determine whether the proposed plan meets all the criteria of the Permanent Program Performance Standards according to the requirements of U.C.A., Section 40-10-1 et seq.

Upon completion of the TA for said plan, a decision will be made as to approval or disapproval of the modification application. An approved plan will be incorporated into the complete complex plan insofar as becoming an integral part that will not need to be reviewed at a future date. For further information or questions pertaining to the status of the plan, please contact Thomas Tetting on the Division's staff.

Sincerely,

JAMES W. SMITH, JR.
COORDINATOR OF MINED LAND DEVELOPMENT
