Re: N.O.V. Issued to Price River Coal Company  
for Spillway in Pond 005

Dear Mr. Loff:

I have discussed the drainage controls at our No. 5 Mine site with Sally Keefer of your technical staff and provided her with some information on runoff dynamics for the area. Sally has suggested that no spillway may be needed due to the excess capacity of the existing structures.

If after a review of the data, a determination can be made to designate these structures as evaporation basins, please vacate the issued N.O.V., if this can be done.

Sincerely,

*R. L. Wiley*  
Robert L. Wiley  
Environmental Engineer
