RE: U.S. 6 Crandall Canyon Approach

Dear Mr. Haub,

Mr. Larry Bowen of Horrocks Engineers submitted a final set of plans for a proposed intersection of Crandall Canyon and U.S. 6. This office has reviewed the plans dated June 1981, and they are acceptable.

When your contractor is ready to start construction, it will be necessary for him to obtain a Highway Encroachment Permit from this office. It will also be necessary for him to furnish us with a work schedule and a traffic control plan.

You should schedule a meeting with your engineer, contractor and us at an early date. Thank you.

Yours truly,

L. Archie Hamilton  
Dist. #4 Preconstruction Engineer
