Dear Mr. Feight:

Office of Surface Mining staff recently reviewed the Crandall Canyon Modification portion of the Price River Complex Mining and Reclamation Plan and have determined that it adequately describes the handling of waste rock material from the shaft excavation. Accordingly, OSM has determined that this satisfies the requirements of Stipulation No. 18 presented in OSM's April 30, 1982 Environmental Assessment of the Crandall Canyon Modification.

Should you have any additional questions concerning this matter, please contact John Montgomery of my staff at (303) 837-2451.

Sincerely,

 Allen D. Klein
