RE: Confirmation of Verbal
Approval for Partial
Construction of Drainage
Control Modifications at
Castlegate Facilities
ACT/007/004, #3 and #4
Carbon County, Utah

Dear Mr. Wiley:

This letter documents our phone conversation of February 24 wherein verbal approval was issued to Price River Coal Company to begin construction of pond 011, the culvert draining to Barn Canyon and the culvert underneath the truck dump access road. Also covered under this approval is the construction of berms and diversion ditches associated with these culverts.

Construction of ponds 012a and 012b is not to be undertaken prior to submitting to the Division soil test/compaction data describing the soil characteristics at these pond sites.

Please keep me informed of the progress of the work and the status of the soil test results.

Sincerely,

Joe Lyons
