Dear Mr. Wiley:

The Utah Bureau of Water Pollution Control has reviewed plans and supporting information for reconstruction of a 60,340 cubic foot detention pond in Crandall Canyon and construction of two dentention ponds totaling 41,100 cubic feet in Hardscrabble Canyon to intercept surface run-off from the mine areas. This information was received on August 3, 1984 from your office.

As a result of our review, the plans and supporting information for construction of the ponds appear to be in compliance with the Code of Waste Disposal Regulations and a construction permit is hereby issued.

Sincerely,

UTAH WATER POLLUTION CONTROL COMMITTEE

Calvin K. Sudweeks
