Mr. Rob Wiley
Environmental Engineer
Price River Coal Company
P.O. Box 629
Helper, Utah 84526

Dear Mr. Wiley:

The Office of Surface Mining (OSM) Western Technical Center has reviewed the design information submitted by Price River Coal Company on June 13, 1984, which was prepared in response to OSM's letter of June 7, 1984, for the construction of a sediment control pond in Hardscrabble Canyon. Based on that review, OSM staff has determined that the pond designs for proposed pond 009 are adequate, and I hereby grant permission for Price River Coal Company to commence construction of the pond. In accordance with the requirements of N.O.V. #84-2-032-1, the construction of the pond must be completed within 30 days from receipt of this letter.

Should you have any question concerning the contents of this letter, please contact either Dave Maxwell or Walter Swain at (303) 844-3806.

Sincerely,

Richard E. Dawes
