TO: Memo to Coal File

FROM: Thomas J. Suchoski, Hydrologist *TJS*

RE: Price River Coal Company, Price River Complex, Assessment
Conference Material for Notice of Violation N84-2-6-2
ACT/007/004, Carbon County, Utah

The Division has reviewed the document dated November 1, 1979 submitted to the Office of Surface Mining by Price River Coal Company, previously American Electric Power Service Corporation, which addresses construction specifications for drainage improvements of disturbed surface areas.

Review of said document denoted the following deficiencies. MC 717.17 et. sec. Protection of the Hydrologic System. The document lacks specific design details and plans for each pond. Only general construction details are presented. Specifically, MC 717.17(e)(5) which delineates the spillway system requirements for sediment ponds is not addressed.
