Mr. Gordon Cook  
Executive Vice President  
Price River Coal Company  
P. O. Box 629  
Helper, Utah 84525

Dear Mr. Cook:

Re: State Permit Approval, Price River Mine Complex,  
ACT/007/004, #2, #4 and #6, Carbon County, Utah

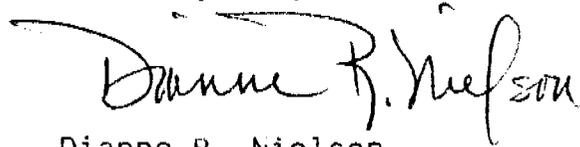

The Division has received a signed copy of the Office of Surface Mining's permit with conditions thereby indicating that Price River Coal Company accepts and will comply with all conditions and time frames set forth in the permit. A signed and executed bond in the amount of \$2,532,857.00, and payable to both the State of Utah and the United States of America has also been received.

Therefore, the State of Utah hereby issues Final Permit Approval for the Price River Mine Complex at this time. Consider this letter to be the Permanent Coal Regulatory Program Permit for the above referenced mine. This permit is conditional upon satisfactory completion of all work designated in Conditions 1 - 11 of the Office of Surface Mining's permit in a timely manner, and compliance with Section UMC 786.29 of the Utah Coal Mining and Reclamation Permanent Program, Chapter I (UCA 40-10-1 et seq.) which is enclosed with this letter.

UMC 786.29 Conditions Of Permits: Environment, Public Health, And Safety

Each permit issued by the Division shall ensure and contain specific conditions requiring that the-

(a) Permittee shall take all possible steps to minimize any adverse impact to the environment or public health and safety resulting from non-compliance with any term or conditions of the permit, including, but not limited to:

(1) Any accelerated or additional monitoring necessary to determine the nature and extent of noncompliance and the results of the noncompliance;

(2) Immediate implementation of measures necessary to comply; and

(3) Warning, as soon as possible after learning of such noncompliance, any person whose health and safety is in imminent danger due to the non-compliance.

(b) The permittee shall dispose of solids, sludge, filter backwash, or pollutants removed in the course of treatment or control of waters or emissions to the air in the manner required by Subchapter K of this Chapter, the regulatory program, and which prevents violation of any other applicable State or Federal law.

(c) The permittee shall conduct its operations-

(1) In accordance with any measures specified in the permit as necessary to prevent significant, imminent environmental harm to the health or safety of the public; and,

(2) Utilizing any methods specified in the permit by the Division in approving alternative methods of compliance with the performance standards of the Act and the regulatory program, in accordance with the provisions of the Act, UMC 786.19(m), and Subchapter K.
