RE: Sediment Pond Certification
Price River Complex
ACT/007/004, #3, #4 and #7
Carbon County, Utah

Dear Mr. Wiley:

The Division has received Price River Coal Company's (PRCC) March 29, 1984 abatement plans for NOV N84-2-2-7, #5 of 7. The plans addressed as-built engineering certification for sedimentation ponds #011, 012A, 012B and 014 located on PRCC's mine properties. The certified construction design drawings and field surveys are adequate to abate this violation. A notice terminating NOV #5 of 7, N84-2-2-7, is enclosed.

It should be understood that after the Division approves a plan for modifying or reconstructing a sedimentation pond, the pond must then be re-certified by a registered professional engineer after construction.

Should you have any questions, please contact me at your convenience.

Sincerely,

D. Wayne Hedberg
Reclamation Hydrologist/
Special Permits Supervisor
