HAND DELIVERED

Mr. Ken Hutchinson  
Price River Coal Company  
P. O. Box 629  
Helper, Utan 84526

Dear Mr. Hutchinson:

Re: Permit Conditions #1 and #5, Price River Complex, ACT/007/004,  
Folder No. 2 and 4, Carbon County, Utah

In response to your request of October 31, 1985, to clarify both the Division of Oil, Gas and Mining (DOGM) and Office of Surface Mining (OSM) responses to submittals for Permit Conditions #1 and #5, DOGM has reevaluated the initial submittals and responses. The following will be required to adequately address these conditions:

Condition #1: Price River Coal Company must include USDA texture class in the sample analysis, as specified by OSM in a May 2, 1985 letter. The parameters mentioned in DOGM's July 22, 1985 letter must also be included. Soil specialists from OSM and DOGM have agreed to require one individual (non-composited) representative refuse sample for each acre of reclaimed area. Price River Coal Company must commit to this.

Condition #5: After re-evaluation of the information submitted to address this condition, DOGM has determined that the submittal is adequate to address this condition. DOGM hereby signs off on Condition #5.

Price River Coal Company must also respond to DOGM's concerns regarding Condition #6, as outlined in the July 22, 1985 letter. Please feel free to contact me or Susan Linner should you have questions.

Sincerely,

*L. P. Braxton*
