RE: Minor Modifications to Approved Mine Plan, Price River Coal Complex, ACT/007/004, Rec'd. De. 27, 1985.

Request for minor modifications consists of a change in mining sequence and pillar extraction.

No concerns or conditions regarding the change in mining sequence and the sealing of the No. 5 (D Seam) mine are needed. However these modifications should be incorporated into the mining and reclamation plan as part of Castle Gate Coal's revisions to the plan.
