Mr. Richard Allison
Castle Gate Coal Company
Project Supervisor, Environmental
P. O. Box 449
Helper, Utah 84526

Dear Mr. Allison:

Re: Special Condition #6, Castle Gate Coal Company, Price River
Complex, Folder #4 and #7, Carbon County, Utah

A recent visit by David Darby, staff geologist, to the underground workings of the No. 5 mine revealed that the mine is essentially non-water producing.

In view of this finding and the fact that Castlegate Coal Company has committed to monitoring in-mine discharges, the Division hereby finds that Castle Gate Coal Company has complied with Special Condition #6 to the permanent program mining permit.

It is also understood that you will again meet with David Darby in February, 1987 to develop an in-mine monitoring program for the No. 3 mine prior to its being activated.

Thank you for your cooperation. If I can be of further assistance please contact me.

Sincerely,

A handwritten signature in cursive script that reads "Susan C. Linner".
