Mr. Lowell Braxton
Administrator
Division of Oil, Gas and Mining
3 Triad Center
Suite 350
Salt Lake City, Utah 84180-1203

Dear Mr. Braxton:

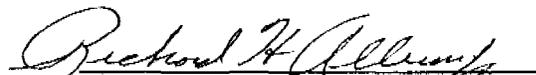

Enclosed are Chapters V through XI of Castle Gate's Mid-Term Permit Review. Only Chapter VII has been revised to show the changes made to drainage controls in Hardscrabble. The other Chapters which are enclosed have been retyped on Castle Gate Coal Company's word processing machine and reflect new page numbers.

The section tab Appendix in the MRP was not retyped in the word processing machine and therefore is the same as in the original MRP. I am not planning on sending you copies of this section as the existing copies can be incorporated into the mid-term.

Upon approval of this mid-term review by your office, I will send twelve (12) copies of text bound in 3-ring binders.

Thank you for your patience in this review process.

Sincerely,

Richard H. Allison, Jr., P.E.
Project Supervisor
