Re: Response to Condition Number One, Castle Gate Coal Company,
Price River Complex, ACT/007/004, Folder # 2, Carbon
County, Utah

Summary

Castle Gate Coal Company's condition resubmittal, received June 6, 1988, has been reviewed. Condition Number One of the approved permit has been adequately addressed.

Analysis

Page 32 of section 3.4-4(1) has been amended to include calcium carbonate percentage, USDA textural class, and selenium in the analysis of the waste material. Other parameters of analysis include: pH; electrical conductivity; sodium adsorption ratio; percent rock fragments; and percent non-sulfate sulfur. The waste material will be sampled at a rate of two grab samples per acre.

Recommendation

Final approval to Castel Gate Coal Company's Condition Number One is recommended.
