The Division has completed the review of Castle Gate Coal Company's conditional approval response regarding spoil sampling rate and analysis in School House Canyon. Response to Condition number one (1) is considered adequate and final approval is granted. All conditions to the five year permit have now been adequately satisfied. Please submit 12 additional copies of the approved pages for transmittal to other agencies.

If you have any questions, please contact James Leatherwood, Reclamation Soils Specialist or myself. Thank you for your cooperation in completing this permitting action.

Sincerely,
