**Re: Castle Gate Coal Company's Permit Renewal  
Technical Deficiency Responses ACT/007/004**

Dear Mr. Haddock,

Enclosed are revised sections of Castle Gate Coal Company's MRP. These sections have been revised to reflect the additional information that your Department requested to accurately access CGCC permit. These sections were updated in response to the Departments Technical Deficiency Review letter dated December 4, 1989.

At this time, CGCC is submitting Sections; 3.2 Sowbelly Canyon, 3.3 Hardscrabble Canyon, 3.7 Crandall Canyon and Chapter 7 Hydrology, for your review. On July 15, 1990 the complete submission required for the Technical Deficiency Review letter will be forward to your office, along with Sections 3.4 Castle Gate Preparation Plant and Refuse Site Facility, and Section 3.5 Adit No. 1 (Utah Fuel No. 1).

Should you have any questions concerning this matter, please feel free to contact Darlene Murphy at (812) 421-3966.

Sincerely,  
Castle Gate Coal Company
