**RE: Privately owned electrical substation nearly Willow Creek in
the SWSW of Sec 6 R10E T13S. ACT/007/002**

Dear Mr. Demczak:

This substation is not the property of Utah Power and Light. At present our transmission line is disconnected from the substation. We have no delivery of power and energy there at present. There has been no request for electrical service at that substation I believe since 1989.

This last summer I was contacted by American Electric Power. They had some options that they were considering which might involve that substation. I met them at the substation site and discussed some modifications that UP&L would require be made to the substation before we could reconnect the substation to our electrical system.

Cordially,

James A. Pehrson P.E.
