Dear Mr. Buck:

Re: Deficiencies (2) Addressing CO C91-18-1-1, Amax Coal Company, Castle Gate Mine, ACT/007/004, Folder #2, Carbon County, Utah

As you are aware the Division issued Notice of Violation #N91-18-1-1 to Castle Gate Coal Company for problems associated with the diversions at the Schoolhouse Canyon refuse pile. A Failure to Abate Cessation Order (C91-18-1-1) was subsequently issued for not completing the required abatement as scheduled. A A
submittal was received at the Division offices on August 15, 1991. A deficiency memo was FAXed to the company and was followed by a formal letter, dated September 11, 1991. The applicant resubmitted refuse drainage designs received by the Division on September 11, 1991.

The purpose of this letter is to inform you that the September 11, 1991 submittal was inadequate and has not abated the NOV. Please review the attached technical memo which points out the deficiencies that still need to be addressed. You should also be aware that the Failure to Abate Cessation Order is still in effect and will restart upon your receipt of this FAX letter. We encourage you to make every effort to complete the abatement requirements.

If you have any questions don't hesitate to call myself or Sharon Falvey.

Sincerely,

Sharon Falvey, Reclamation Hydrologist
