Re: Approval of Revised Chapter IX, Seed Mix for Temporary Stabilization, AMAX Coal Company, Castle Gate Mine, ACT/007/004-93B, Folder #3, Carbon County, Utah

Dear Mr. Allison:

The Division has completed a review of the AMAX's amendment dated November 16, 1993 which provided for an additional seed mix for temporary stabilization. The submittal was found to be complete and accurate by Paul Baker of the Technical Staff. The amendment is hereby approved. You should understand that the species in the seed mix used for temporary stabilization are not acceptable for final revegetation.

AMAX will be required to incorporate this amendment into the Mining and Reclamation Plan when compilation of all of the approved changes into your plan takes place. Appropriate copies will be submitted at that time. Please call me or Paul Baker if you have any questions.

Sincerely

A handwritten signature in black ink that reads "Daron R. Haddock".

Daron R. Haddock
