Dear Mr. Haddock:

Earthfax Engineering has been selected to revise the mining and reclamation plan as required by Division Order 94A. Aerial photography targets have been established and photography should be completed ahead of schedule this fall.

Please provide any of the original permit deficiency comment letters or revised deficiencies comment letters to expedite the revision process. After we review the comment letters, we would prefer to schedule a meeting to discuss the deficiencies and develop strategies to address the comments satisfactorily to both parties.

If you have any questions or require additional information, please call me at (801)636-2250.

Respectfully,

Lonnie Mills
Sr. Environmental Engineer
