RE: Renewal of Castle Gate Coal Company  
UIC Permit Number UTU500001;  
Change of Ownership (Cyprus Plateau  
Letter to DEQ Dated April 11, 1994).

Dear Mr. Hurst:

The above-referenced underground injection control permit is scheduled to expire at midnight December 24, 1994. If Castle Gate Coal Company wishes to renew this permit (modified or not), a complete permit renewal application should be submitted to this office at least 180 days before the expiration date (see Part II-E-3 of the permit). A copy of the latest revision of the UIC rules is enclosed.

A permit renewal application must address each item listed under section R317-7-9 of the UIC rules. However, if Castle Gate Coal Company's intended response to a particular item is the same as in the previous permit application, that item may be addressed as "No change."

Additionally, please provide us a copy of all the legal papers which show the ownership change indicated by your letter referenced above, including name changes to the site reclamation bond held by the Division of Oil, Gas and Mining.

The documents must clearly indicate the liable party(ies) for site activities related to the permit.

Please contact Jerry Jackson of this office at 538-6146 if you have any questions.

Sincerely,

Larry J. Mize, P.E., Manager  
Ground Water Protection Section
