Re: Approval of Amendment 95F, Castle Gate Mine, Amax Coal Company, ACT/007/004, Folders #2 and #3, Carbon County Utah

Dear Mr. Grimes:

The Division has reviewed your revisions to Chapter 12 of the mining and reclamation plan received in this office October 5 and November 2, 1995. These changes are intended to address Division concerns relating to the containment berm around the topsoil stockpile and diversion ditches. They are hereby approved effective December 18, 1995. The Division will submit copies of this amendment to various agencies for their comments.

Thank you for your cooperation in the permitting process.

Sincerely,

A handwritten signature in black ink, appearing to read 'P. B. Baker'.

Any other specific or special instructions required for insertion of this proposal into the Mining and Reclamation Plan?

Revisions in Section 12.5, required the elimination of Appendix 12-5-1, therefore all appendices which followed moved up in the sequence. Appendix 12-5-2 "Geotechnical Report" is now Appendix 12-5-1, "Cut and Fill Calculations is now Appendix 12-5-2, and so forth. A new appendix cover is included in this submittal for each appendix.
